Unit of GEM Hospital (Coimbatore, Chennai)

LAPAROFIT

LAPAROFIT entering the 9th edition has evolved a brand by itself in the field of Bariatric surgical education. With unique ideas and innovations, the conference has always been in the forefront in surgical education focussed towards the future.

The theme for this year "Lets talk the untalked" where we aim to discuss topics not suavely discussed in most academic events and those with practical importance to bariatric surgeons. This will happen alongside the ASIA PACIFIC SUMMIT ON CLINICAL CARE PATHWAYS.

ASIA PACIFIC SUMMIT ON CLINICAL CARE PATHWAYS

Standardisations, atleast in surgical practice are easily said than done. Establishing the best standards in clinical practice would lay the strong foundation to reduce morbidity & mortality and also aid in improving the best possible long term outcomes.

We aim to bring the societies of Asia Pacific together to formulate the same and would serve the ideal platform for a great learning experience from different nations.
